

ENTERPAD PROGRAMMABLE KEYBOARD

Thanks to Enterpad, you will save time and be more efficient with JAWS, MAGic, ZoomText, NVDA, Window-Eyes, VoiceOver and with your daily tasks. The Enterpad keyboard is compatible with the whole range of screen reading programs and large print software available on both PC and Mac.

Enterpad will make it much easier for you to use your software. You will no longer need to enter shortcuts like CTRL+ALT+F1 and repetitive character strings.

Enterpad is the perfect tool for students, workers or anybody having difficulties using a regular keyboard or memorizing sequences.

By pressing any of Enterpad's 120 keys, you will obtain a sequence of letters, digits or functions just like you would using your regular keyboard.

Use Enterpad for data entry, automation, macro commands and hot keys. Get an excellent work done

in less time and with fewer errors, improve personnel training and reduce the risk musculoskeletal disorders.
